

Zurich 26 Hermance 6

Match Report by Schelte Betten aged 32 1/3

Bru, I woke Sunday morning, wear jean pant and had half coo for breakfast. Ja, Ja, today I play second row so need be light for lifters.

Spoke to my friend Iain Wise from rainy country with lousy cricket team and he gave me swig of Laxatonic before game. I think that is French for Gatorade. It was nice and I am beginning to fink that not all Hermance players eat children like my Soutpiel bru says in team talk.

Hermance kicked of and seemed to show more movement than bowels. We lucky they not score. Bru, I remember noofing much about first half but we broke them in scrum and my friends in backs dropped it a lot. Ja, Ja, Break em!

Josh could not play as he had other commitments

My friend, in second half I really needed to drop one. I sneaked of but changing rooms locked. Had idea to go to Sihlcity. Toilets their are nice with acqua mosiac tiles and soft paper. Dropped 5 kilos of pure Afrikaans fertiliser not only in pan but on ceiling, floor, window and door. Washed hands twice as they have nice pink soap. I think cleats may have broken floor tiles like Hermance scrum.

I got back ten minutes later and don't think anyone noticed I had gone. Bru, I think I got away with it.

K E M Nicholls, a fine tictactician, noticed how fast I looked and kicked thru for me to chase. Unluckly bounce meant no Schelte try. Someone who wasn't me got red card and then game ended. Jou ma se p*#s.

There is no I in TEAM so Tati got too tries and K E M Nicholls got 6 out of 6 kicks with 3 from far away. Not bad for pony back.

Summary

Sod Rover, we have Schelte.
